

Supplementary Materials 3. Descriptive responses for each sample for hypothesised correlates

	Khulna Pilot, Bangladesh % (n)	Khulna Cohort, Bangladesh % (n)	Soroti, Uganda % (n)
n	313	891	538
Missed school due to last menstrual period	44.9 (137)	36.9 (321)	31.1 (161)
Experienced difficulty participating in class due to last menstrual period	47.5 (135)	45.8 (385)	-
Felt very confident managing menstruation at home	30.6 (96)	26.0 (232)	Felt confident 80.5 (432)
Felt confident managing menstruation at school	66.4 (207)	48.4 (431)	51.6 (277)

Supplementary Materials 3. MPNS-SF and MPNS-R total and sub-scale scores, internal consistency and associations with hypothesised correlates across the three included surveys

KHULNA PILOT	Mean	SD	α	Ordinal	DASS r (p-value)¹	Did not miss school due to last period OR (95%CI)	Did not experience difficulty participating in class due to last period OR (95%CI)	Very confident managing menstruation at home OR (95%CI)	Confident managing menstruation at school OR (95%CI)
